OUR **Products**

Fire Hydrant System

The fire hydrant system provides a reliable water supply for firefighting.

- Fire Hydrant Riser – Ensures vertical water distribution for effective firefighting.
- Fire Courtyard System – Provides outdoor fire suppression with strategically placed hydrants.

Fire Sprinkler System

Automatic fire suppression system that activates upon heat detection.

- Pendent/Upright/Sidewall System – Different sprinkler types for optimal fire coverage.
- Fire Flexible Drop System – Flexible piping for easy sprinkler installation in challenging areas.

Fire Pump Room System

A dedicated fire pump room system ensures adequate water pressure and flow for firefighting operations, supporting hydrants, sprinklers, and suppression systems during emergencies.

Fire Control Panel

The fire control panel serves as the central hub for fire detection and alarm systems, ensuring quick response by monitoring and controlling all fire safety devices.

Fire Alarm System

An advanced fire alarm system includes a detection system for early alerts, a talk-back system for communication, and a public addressable system for emergency evacuation guidance.

Fire Extinguishers

A complete range of fire extinguishers, including ABC, CO2, foam, K-type, clean agent, and modular types, provides effective solutions for various fire hazards in different environments.

Fire Door

Fire doors are designed to contain fire and smoke, ensuring safe evacuation routes while preventing fire spread, offering enhanced safety for buildings and occupants.

OUR *Services*

Fire System Installation

We design and install advanced fire protection systems, including hydrant system, sprinklers system, fire pump room system, fire alarm system, fire NOC and detectors, ensuring maximum safety and compliance with fire regulations for residential, commercial, and industrial spaces.

Fire Systems AMC & Maintenance

Our AMC and maintenance plans provide regular inspections, testing, and preventive care to keep fire protection systems functioning efficiently, minimizing risks and ensuring continuous safety.

Equipment Supply & Firefighting Pumps

We supply high-quality fire safety equipment, including extinguishers, hoses, and pumps, sourced from trusted brands to ensure reliable performance in emergency situations.
